

The perfect solution every time

Cleaning your property exterior enhances your face to the world and helps you save considerably on long-term repair and repainting costs.

JT Property Wash has developed a long relationship with Resene, starting over 50 years ago when Resene first began supplying paint to JT Property Wash's sister company, J. Tomlinson and Co. Ltd, for their painting business.

Now, JT Property Wash has partnered with Resene to develop exterior cleaning products that use advanced technology to effectively clean while still caring for our environment.

"JT Property Wash is brilliant to work with and very professional. We recommend them to our customers because the work they do helps to keep commercial properties looking their best."

Karen Warman, Marketing Manager Resene
